

- Suction dredger with diesel engine, used
- Manufacturer: Adreba Dredgers GmbH Germany
 - Year of construction: 2001
- Operating hours: 1624 (hours are guaranteed)

- Engine: Deutz Diesel, BF6M1015C, 259Kw / 352HP, 1800rpm
- Suction pump, condition: approx. 70% good,
- Power suction pump 650sqm / h
- Suction pipe DN 300
- Output line / pressure line DN 250
- Suction depth / working depth 19 m
- 120 m plastic pipes DN 250 PVC, (10 pipes á 12 m, with flanges)
- 60 pcs. Floating body distributed on the pipes
- Additionally 1 x new rotor suitable for the pump is included

The machine is bolted and can be disassembled into pieces during disassembly, so no special permit for road transport is required.

Transport dimensions:

- Cabin (widest part) 3.3 mx 3.3 m, height 2.60 m
- Platform 3,90 m x 2,80 m height 0,97m
- 2 side pontons: per pontoon: width 2.51 m, length 10.10 m
- front pontoons bolted
- The entire suction dredger is railed.
